**Regional Medical Conference with International Participation**

[voyagertravel.gr](http://voyagertravel.gr)

ORGANISED BY

- ▶ **Neurosurgery Institute of the University of Ioannina**
- ▶ **Center for Research and Innovation in Solid Organ Transplantation of the Aristotelian University of Thessaloniki**
- ▶ **Department of Nuclear Medicine of Hippocraton General Hospital of Thessaloniki**

The Conference is accredited by the Panhellenic Medical Association, with Continuing Medical Education Credits (CME/CPD Credits)

## MESSAGE OF THE PRESIDENTS OF THE ORGANIZING COMMITTEE

The success of the previous ENMF Conferences attributable to the fertile collaboration of distinguished scientists, spurred us to take the initiative of organizing the 4th ENMF Multi-Disciplinary Medical Conference with International Participation on 17-19/05/2024 at the Nikolaos Germanos Conference Center in the HELEXPO-International Fair of Thessaloniki.

The subtitle ("Medico-Surgical Innovations, Imaging Breakthroughs and Artificial Intelligence") and the original topics of the Conference, organized by the Center for Research and Innovation in Solid Organ Transplantation of the Aristotelian University of Thessaloniki, the Neurosurgery Institute of the University of Ioannina and the Department of Nuclear Medicine of Hippocraton General Hospital of Thessaloniki, under the auspices of many state agencies and scientific associations, provide the possibility of in-depth insight and valid navigation in innovatory and pioneering applications, thus contributing to the fruitful interaction and efficient convergence of medical skills, interdisciplinary approaches and technological progress.

Having been established by all of you as a Medico-Social Forum, the ENMF Conference places particular emphasis on the development of strategic initiatives for the substantial exploitation of innovations and their applied incorporation into the daily patient care, the rapid discovery and delivery of health-promoting tools designed in a way oriented to the end user, the rational prevention to avoid or mitigate problems, the strengthening of social cohesion, the promotion of well-being and the improvement of citizens' experience.

In addition, the Conference has an orientation to train younger colleagues based on the state-of-the-art international standards, with applications of augmented and virtual reality, and to familiarize all health workers with both the relevant basic sciences and the approaches to the mysteries of life which accent the transcendent dimension of human person and explain her/his uniqueness, so that together with the thoroughly dealt sequences of causes, effects and epiphenomena, a truly personalized medicine becomes achievable, optimally solving problems and contributing to true health experienced as a thanksgiving and active collaboration in the present space and time.

"Discovery is an incidental event that meets a prepared mind" according to the saying of Albert Imre Szent-Gyorgyi (1893-1986), Nobel Laureate in Medicine. We hope that the Conference will constitute a substantial contribution: (a) to the formation of a culture of fertile receptivity to the ever-emerging possibilities without neglecting the existential dimension of health and (b) to a creative and dedicated effort in the dynamically evolving mosaic of interweaving innovations with everyone's accessibility to specialized preventive care and topnotch treatment of health problems.

With sincere greetings  
The Presidents of the Organizing Committee

**Georgios Tsoulfas, MD, PhD**  
Professor of Transplantation Surgery,  
Chief of the Department of Transplantation  
Surgery, Aristotle University School of Medicine

**Athanasios Notopoulos, MD, MBA, PhD**  
Head of Nuclear Medicine Department,  
Hippokration General Hospital Of Thessaloniki

## CONFERENCE TITLE

4th ENMF (Exploring Novel Medical Frontiers)  
Regional Medical Conference with International Participation

## DATE

17<sup>th</sup>—18<sup>th</sup>—19 May 2024

## PLACE

“Nicolaos Germanos” Conference Center  
HELEXPO / INTERNATIONAL FAIR OF THESSALONIKI

## WEBSITE

[www.enmf.eu](http://www.enmf.eu)

## TOPICS

The Conference has been established as a Multi-Thematic Medico-Social Forum of interdisciplinary approaches. Emphasis will be placed on, but not limited to, topics such as:

- Innovative medico-surgical interventions and robotics
- State-of-the-art imaging and new horizons
- Current applications and perspectives of AI in diagnosis and treatment
- Epistemological and ethical issues arising from the use of “deep learning” medical algorithms
- Multifunctional biomaterials for tissue regeneration and personalized drug delivery
- Strategic initiatives for optimal health care

## SUBMISSION OF ABSTRACTS OF SCIENTIFIC PAPERS

In addition to the Guest Lecture Program, there is the possibility to participate with Scientific Papers in the form of e-Posters that will be displayed on screens throughout the Conference followed by a short (4-5 min) oral presentation at specific sessions.

The papers may pertain to:

- Clinical Research (Original/Confirmative)
- Basic Research (Original/Confirmative)
- Mini Reviews
- Interesting Case Reports
- History of Medicine
- Health Care Organization.

Extended (1-3 page) summaries of the papers are submitted in English Language through the Conference website (enmf.eu) until 17/03/2024. The notification for their acceptance will have been completed by 31/03/2024, whereupon further instructions will be given.

During the Closing Ceremony of the Conference, the best scientific projects of each category will be awarded.

## CONFERENCE LANGUAGE

The official languages of the Conference are Greek and English.

## CREDITS HOURS OF MEDICAL EDUCATION

Continuing Medical Education Credits (CME-CPD) will be awarded by the Panhellenic Medical Association.

## EXHIBITION

During the Conference, there will be an exhibition of products from Pharmaceutical Industries and Medical Equipment Companies.

## CULTURAL EVENTS DURING THE CONFERENCE

Guided tours will be organized at the Archaeological Museum of Thessaloniki, the Byzantine Museum of Thessaloniki, the White Tower, the War Museum and the Macedonian Museum of Contemporary Art.
